

Terminal for direct connection on busbar

KS 185

- terminal for direct connection on busbar
- copper/aluminium conductor 95 - 185 mm²

- for round and sector-type conductors
- for Cu/Al conductors stranded (s), flexible (f) for direct connection
- for copper rail 20x10mm up to 30x10mm
- for busbar system 400 A L1-L3, 630 A N + L1-L3
- Before connecting, aluminum conductors must be pre-treated according to the appropriate technical recommendations, see technical information aluminum conductors

tightening torque for terminal	30,0 Nm
width	38 mm
weight	0,343 kg
