48540220

DATALOG H80 are industrial rated dataloggers with a high storage capacity that can:
- centralise multiple Socomec measurement systems (up to 500 devices) with an Ethernet connection,
- secure and store measurement data locally,
- provide data to Energy Management and Building Management software by exporting automatically and cyclically to remote servers via secure FTPS, SFTP or HTTPS protocols,
- use a local Ethernet network.

Strong points
- Easy to install
- Connected
- Advanced functions
- Cyber security

General characteristics
- DIN-rail or door mounted.
- Export of data by Ethernet.
- 160 GB memory.
- Cyber security.

Compliance with standards
- IEC 62974-1
- CE
- FCC
