

Lighting Intelligence Showcase

Hello. We are Helvar.

Hospitals. Offices. Galleries. Schools.
Hundreds of places use Helvar.

We're world leaders in lighting intelligence.

Our solutions are built for wellbeing. They save energy and improve human comfort. They help you concentrate and are good for our planet.

For work. For play. For wherever there is light — Helvar will mean you're in charge.

Always fully integrated and designed to scale and flex, they're perfect for each situation.

And with intuitive app-based interfaces, you can select the right scene at a touch.

Whatever your lighting control needs, we can help. From a small shop to a luxury liner.

With a reputation for service stretching back a century, we'll be beside you each step of the way.

CULTURE

From preserving priceless frescoes by Giotto and Cimabue to presenting portraits through the eyes of Old Masters, Helvar lighting controls help people cherish the world's greatest treasures.

WHY HELVAR?

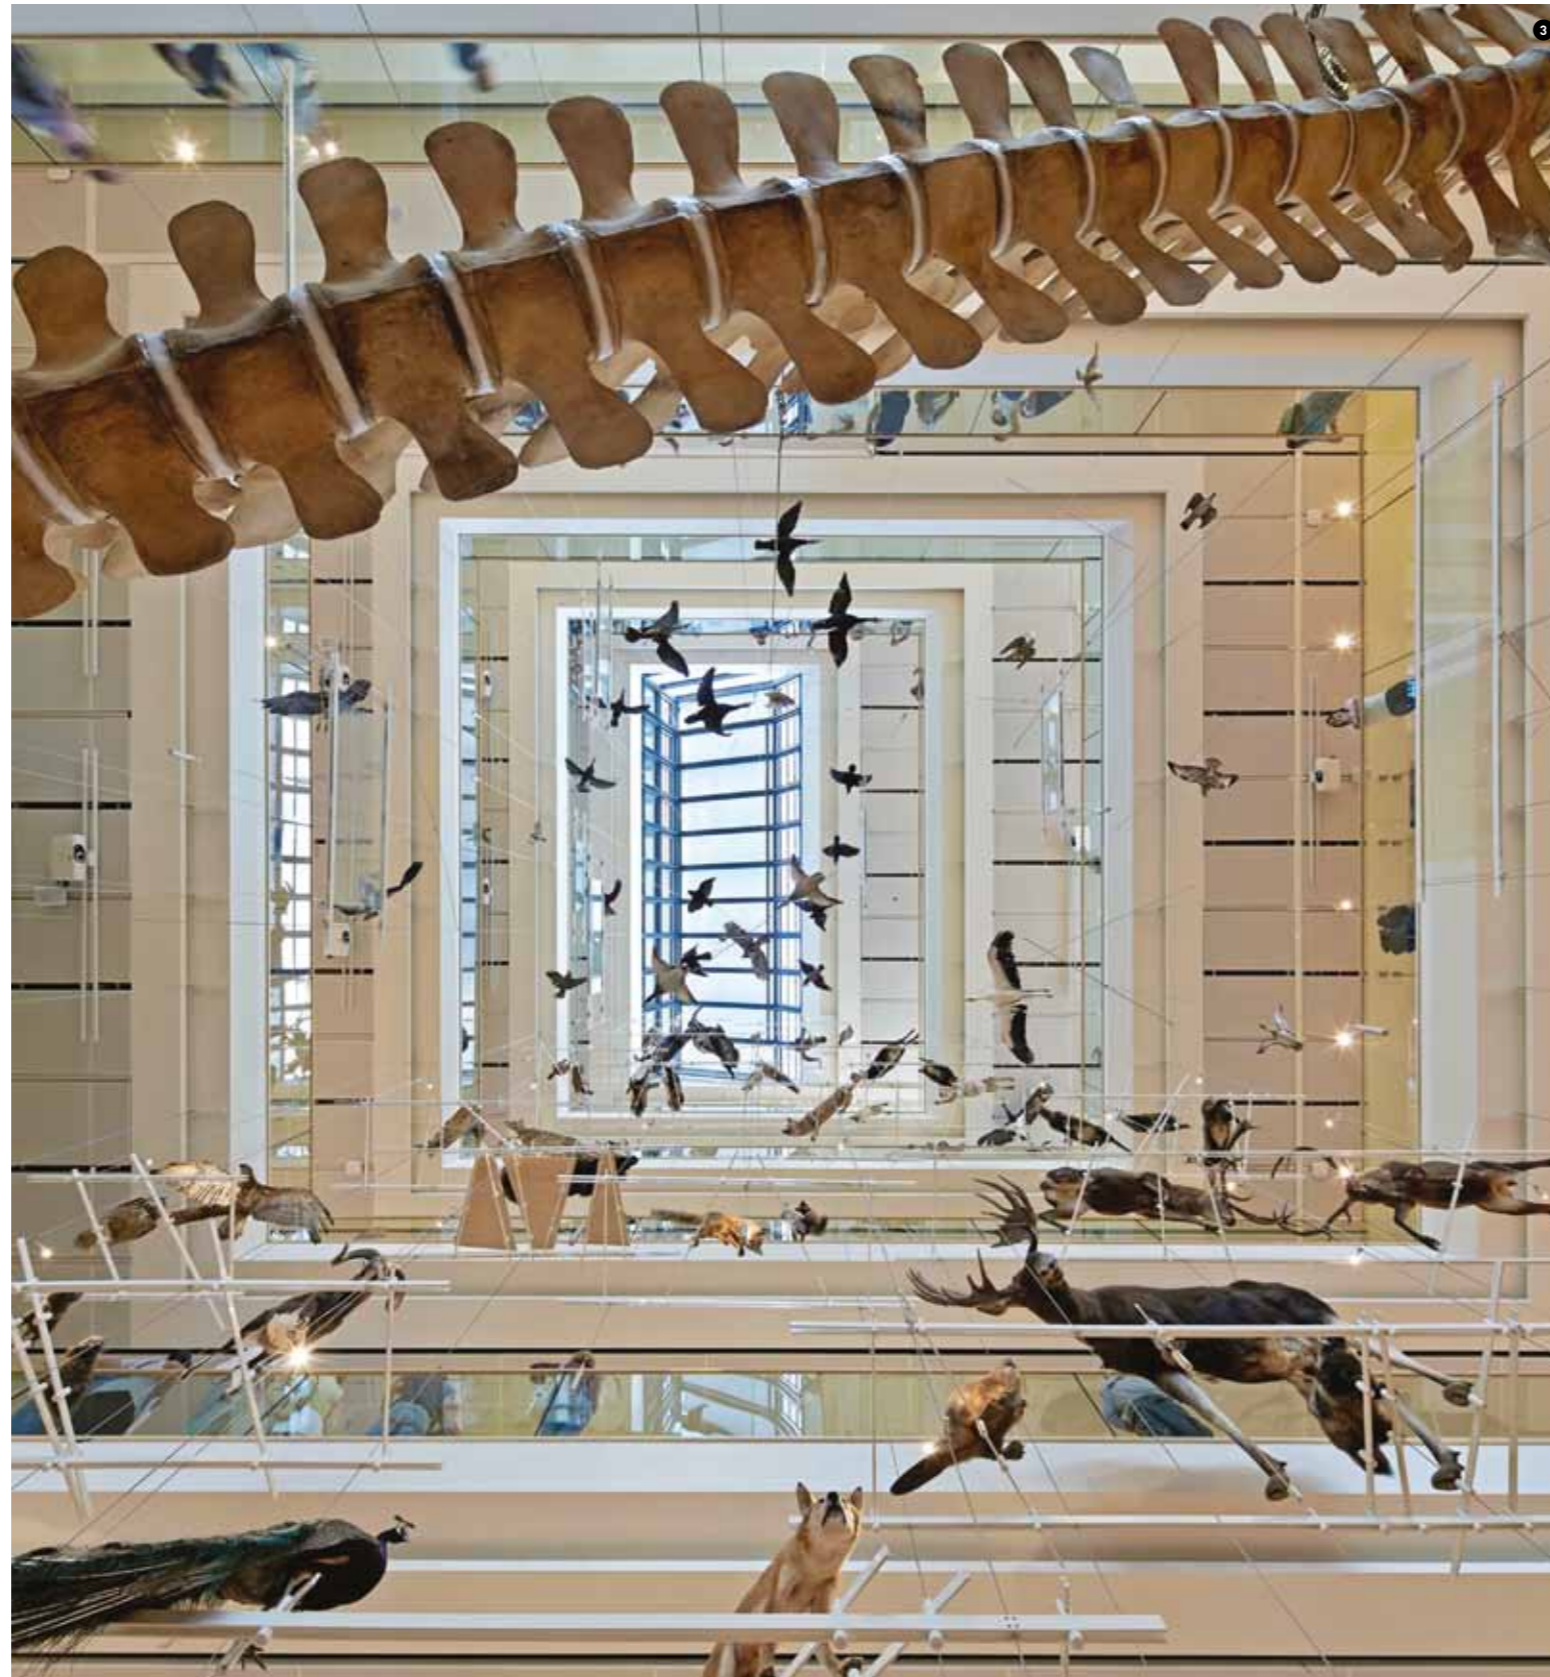

- Activity-based light levels
- Simple programming for different event types
- One system for multiple applications
- Integration with entertainment lighting – Architainment™
- Energy management and maintenance
- Power-on to last level used
- Integration with building management and audio-visual systems
- Control of multiple load types

1 Forums and Emperors, Rome, Italy
At sunset, the system's astronomical clock automatically activates programmed scenes.

2 The Postal Museum, London
We used 40 ceiling PIR detectors to maximise energy efficiency.

© Millen-Crow

© Heija Korhala

3 MuSe Museum, Trento, Italy
Light intensity is adjusted continuously, depending on the natural daylight available.

4 Didrichsen Art Museum, Helsinki, Finland
Every luminaire in the DALI-controlled spotlights and wall washers can be adjusted for each piece of art.

5 Helsinki Design Museum, Finland
We can define lux-based intensity thresholds to protect delicate textiles, tapestries and paintings.

“*Helvar's lighting control solution is an excellent application for a museum environment.*”

PEKKA NISSINEN
Helsinki Design Museum

CULTURE

Stable light levels for reading. Stepless dimming. Infinite colours and tunable whites. Whether you're creating a cutting-edge display or an atmosphere from ancient history, we've got the know-how to make it happen.

HELVAR FOR YOUR:

- Arena
- Auditorium
- Cinema
- Concert hall
- Entrance hall
- Foyer
- Fitness centre & spa
- Parking
- Restaurant
- Stairwell

6 Heusenstamm Castle, Hesse, Germany
After midnight, night mode starts automatically. Dimmable lights are set to 30% and switchable lighting turns off.

7 Olympic Museum, Lausanne
Infinitely adjustable lighting helps visitors explore the exhibits.

8 National Library of Finland, Helsinki
Our 910 DIGIDIM router system is easy to install, scalable, and adaptable enough for many large buildings.

9 National Portrait Gallery, London
Helvar lighting provides a constant colour temperature, so each portrait looks exactly as the artist intended.

“By using Helvar, we estimate that the library has saved 70-80% of its energy used in lighting.”

JUKKA RIIKKULA
Helvar, Finland

10 Kabuki-za Theatre, Tokyo, Japan
Helvar lighting conjures “everlasting moonlight” – a feature of the Edo Period when Kabuki began.

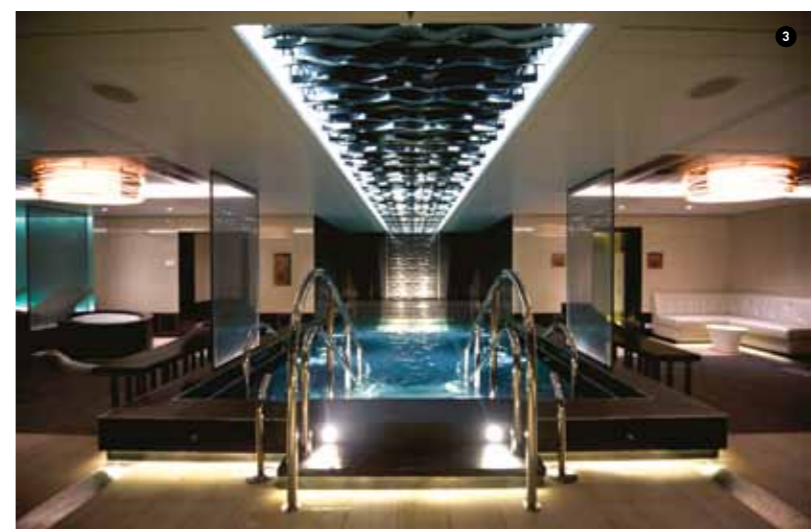

MARINE

“Using Helvar lighting control was a simple decision for us.”

ANDREAS KÖHLER
Wärtsilä FUNA

3

4 Royal Caribbean Allure of the Seas
Lighting scenes are programmed to follow the diurnal rhythm of passengers – and the ship herself.

- 1 Royal Caribbean Symphony of the Seas**
The world's largest luxury cruise ship uses Helvar intelligent lighting throughout.
- 2 Royal Caribbean Allure of the Seas**
By day or by night, the Allure of the Seas represents lighting control at magnificent scale.
- 3 P&O Line Britannia**
The finer and smoother the control of each light fixture, the better the comfort of guests.

4

Live in luxury on the open seas. Beautiful ballrooms and sensational spas are a sign we're at work below-deck. From casinos, cinemas and chandeliers to in-cabin scenes that create the perfect ambience, you're sure of smooth sailing with Helvar.

- WHY HELVAR?**
- Scene section to create the right ambience
 - Fully scalable, from a single cabin to the entire ship
 - Integration with room management and audio-visual systems
 - Control of multiple load types
 - Energy monitoring and maintenance
 - Automated control of public spaces

2

MARINE

The world's most magnificent yachts and cruise liners use Helvar. Wherever you are in the oceans, our systems work with geographical light and circadian rhythms, creating comfort and pleasure for guests.

HELVAR FOR YOUR:

- Ballroom
- Boutique
- Cabin
- Cinema
- Concert hall
- Façade and landscaping
- Fitness centre & spa
- Lobby
- Restaurant

5 Royal Caribbean Harmony of the Seas
We pride ourselves on a high degree of customer support, suited to the most ambitious projects.

6 P&O Line Britannia
P&O Cruises' biggest ship relies on Helvar to maintain a relaxed and opulent feel.

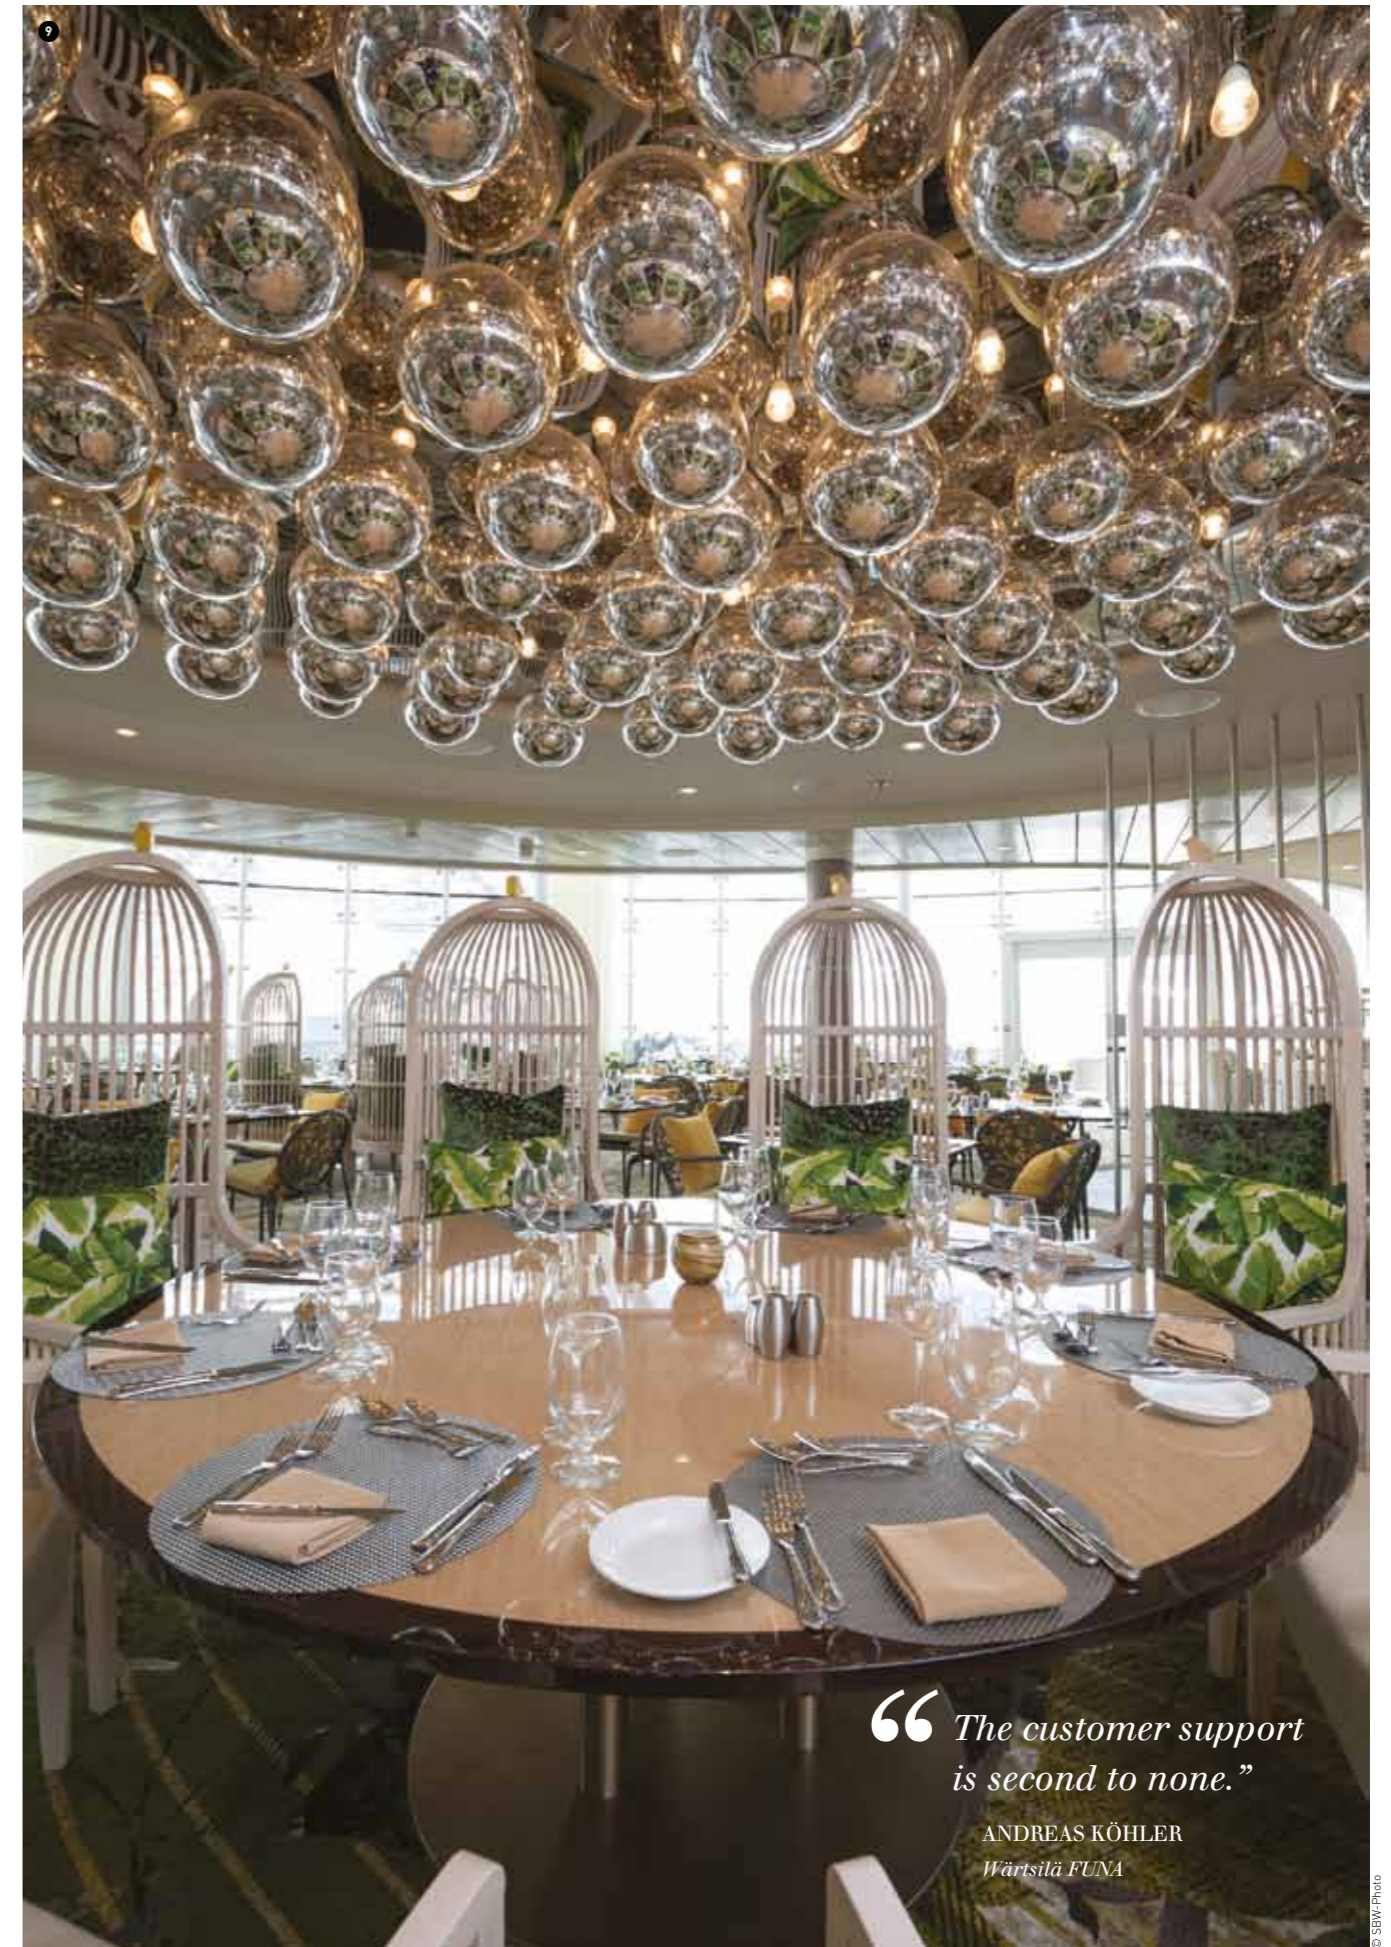

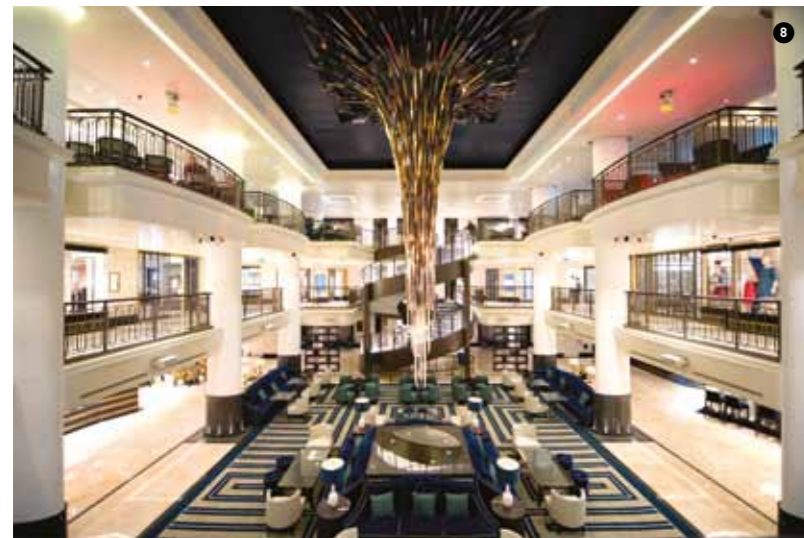

7 Royal Caribbean Harmony of the Seas
Let robot bartenders mix you a drink on a deck lit with Helvar controls.

8 P&O Line Britannia
The atrium's impressive starburst chandelier is controlled by the Helvar system.

9 Royal Caribbean Symphony of the Seas
Helvar's dynamic lighting aboard "the greatest cruise ship of all time".

“The customer support is second to none.”

ANDREAS KÖHLER
Wärtsilä FUNA

“It’s a flexible and open system. You can easily extend it later.”

CHRISTOPHER STIMPEL
EGGER Group

5 SafeExit, Glostrup, Denmark

Lighting can be controlled from a tablet with our SceneSet app.

6 SafeExit, Glostrup, Denmark

With lighting intelligence, light levels can be adapted for every task.

7 Helvar HQ, Finland
By monitoring and measuring movement patterns, ActiveAhead® consistently learns and adapts.

8 Statoil Headquarters, Fornebu, Norway
At the main entrance, LED backlights are controlled by Helvar 910 routers combined with daylight sensors.

“ Helvar’s DIGIDIM system was the best possible choice for lighting control.”

MATTI SINISALA
Electrical designer for the European Chemicals Agency, Helsinki

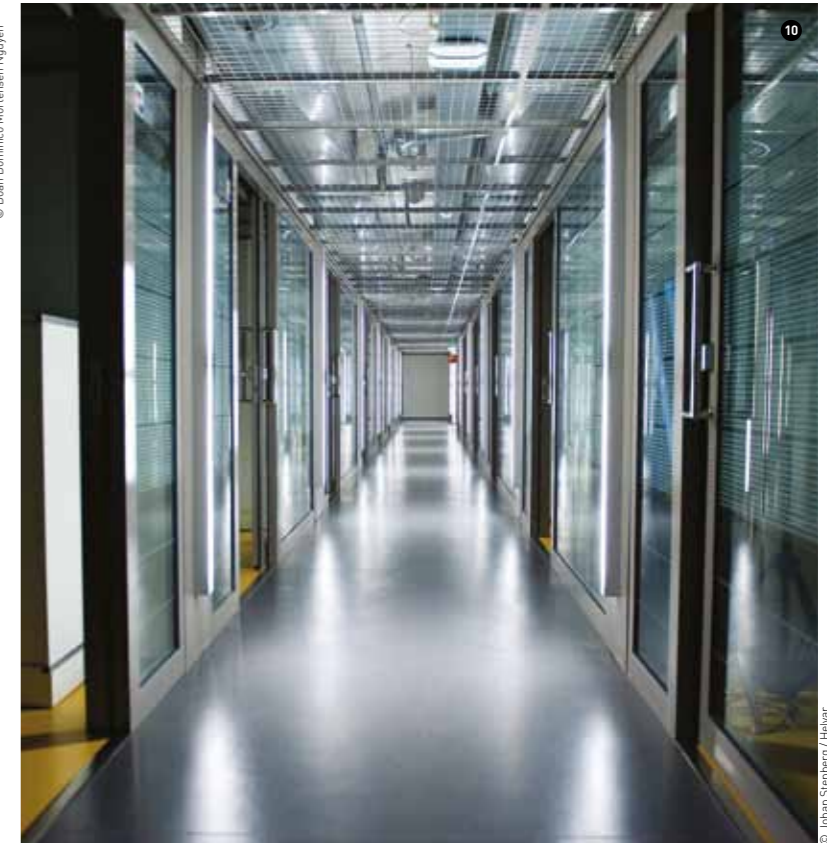

9 Salo City Hall, Salo, Finland

The lighting in the lobbies is controlled by time schedules and presence detection.

10 European Chemicals Agency, Helsinki, Finland

Even underground, colour temperature control boosts energy levels and brings greater comfort.

EDUCATION

Good light feeds growing minds. It takes flicker-free conditions to help learners stay sharp. And intelligent lux level monitoring to efficiently harvest natural daylight. It's a prize-winning formula for concentration. Wellbeing. And budgets.

WHY HELVAR?

- Student comfort
- Correct light level for every activity
- Classroom or whole building solution
- Integration with building management and audio-visual systems
- Automated or manual control
- Daylight harvesting and presence detection for energy saving
- Energy management and maintenance

1 Kaisatalo Helsinki University Library
The system calculates natural light levels and uses anti-glare LEDs to create a stable reading environment.

2 Gateway to the Valleys School, Bridgend, Wales
In this fully integrated system, teachers can individually control lighting around windows and whiteboards.

3 Terväväylä School, Finland
Visually impaired students benefit from even lighting with minimal glare.

4 Uppsala Teacher University, Sweden
Intelligent lighting systems aid comfort, concentration and wellbeing.

“*Helvar’s lighting control system is perfectly suited for schools. The teacher can adjust the lighting at the press of a button.*”

ERKKI ANTILA
Electrical manager for the Terväväylä School project

5 Uppsala Teacher University, Sweden
Students and teachers benefit from light designed to coincide with circadian rhythms.

EDUCATION

Controlling lights above whiteboards.
Connecting cross-campus buildings.
Helvar speaks to your existing
facilities and audio-visual systems.
Creating dazzle-free learning
environments.

HELVAR FOR YOUR:

- Assembly hall
- Auditorium
- Canteen
- Classroom
- Corridor
- Gymnasium
- IT suite
- Nursery
- Reception
- Science lab
- Staffroom
- Stairs

6 Kaisatalo Helsinki University Library, Finland

Controllable lighting, efficient use of daylight and the Helvar uSee Interface generate energy savings of 50%.

7 Uppsala Teacher University, Sweden

Comfort and concentration, with a dynamic lighting system in tune with learners' needs.

8 Vuores School, Finland

Helvar controls are fully integrated with classroom audio-visual systems and with the building management system.

9 University of Bath, England

One central control platform has been implemented across a network of independent buildings.

“The energy savings will help us achieve our efficiency targets as well as saving tens of thousands of pounds over the life of the installation.”

RICHARD HUGHES
Bath University

10 Deltares, Delft, Netherlands

Comfortable and energy efficient, thanks to presence detection and intelligent daylight control.

“The Helvar system copes easily with the vast number of different light loads and partition walls.”

CHAMPALIMAUD CENTRE, LISBON

HEALTHCARE

Light helps to heal body and soul. By putting people first, we lead the world in dynamic lighting. Based on people's natural circadian rhythms, Helvar lighting controls respond to the seasons and local environment. For surroundings that simply feel better.

WHY HELVAR?

- Simple control for patient comfort
- Task lighting for medical personnel
- Automated control of public spaces
- Power on to last level used
- Presence/absence detection
- Fully scalable, from a bed to a building
- Integration with building management system
- Energy monitoring and control

© FAB AV

1 Champalimaud Centre for the Unknown, Lisbon, Portugal

A Helvar router system is used for lighting control throughout the centre.

2 Keech Hospice, Luton, England

Pre-set scenes can be recalled easily from just four buttons.

3 Seinäjoki Hospital, Finland

Dynamic lighting helps recovery. Colour and brightness shift automatically, night and day.

4 Tipotie, Tampere, Finland

A smoothly rotating control switch allows for stepless dimming.

© Lauri Dammerit

HEALTHCARE

When lighting control feels this natural, you'll forget that it's there. Saving energy for your patients and people. And meaning everyone can focus on being well.

HELVAR FOR YOUR:

- Administration area
- Corridor
- Operating theatre
- Private patient room
- Reception
- Restaurant
- Stairs
- Treatment room
- Waiting room
- Ward

5 Alto Vicentino, Thiene, Italy
Improving comfort and saving energy — across more than 8,000 dimmable sources.

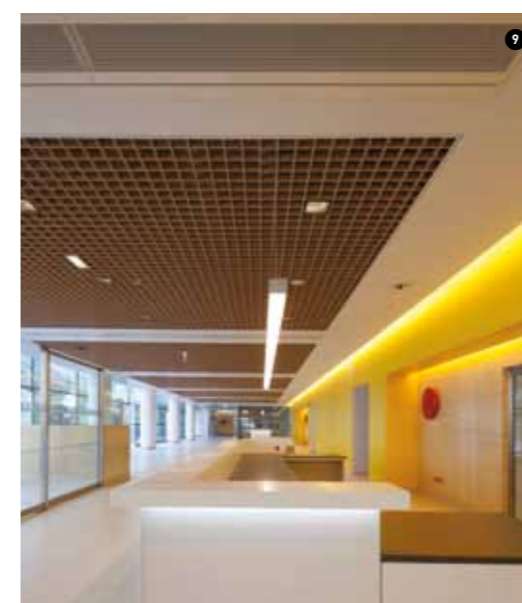

6 Tipotie, Tampere, Finland
Each luminaire has its own address and can be individually controlled.

7 Tipotie, Tampere, Finland
Our DALI router system controls lighting in the spacious multi-floor lobby.

8 Champalimaud Centre for the Unknown, Lisbon, Portugal
The Helvar router also controls all the blinds inside the buildings.

9 Champalimaud Centre for the Unknown, Lisbon, Portugal
Lighting levels are automatically scheduled based on dates and geographical coordinates.

10 Seinäjoki Hospital, Finland
Lighting's controlled bed by bed — and is shadowless in operating theatres.

11 Linköpings University Hospital
Over 500 Helvar routers control lighting in rooms, intensive care units and operating theatres across four buildings.

“The Helvar router opens up endless possibilities that are only limited by our imagination.”

TUOMAS KAITA
Manager for the Tipotie Health Centre installation, Tampere, Finland

HOTELS & HOSPITALITY

Sleek spas. Relaxing restaurants. Rooms built to help you recharge. And all with an emphasis on award-winning style and energy-saving capabilities. We'll make sure you're being well served.

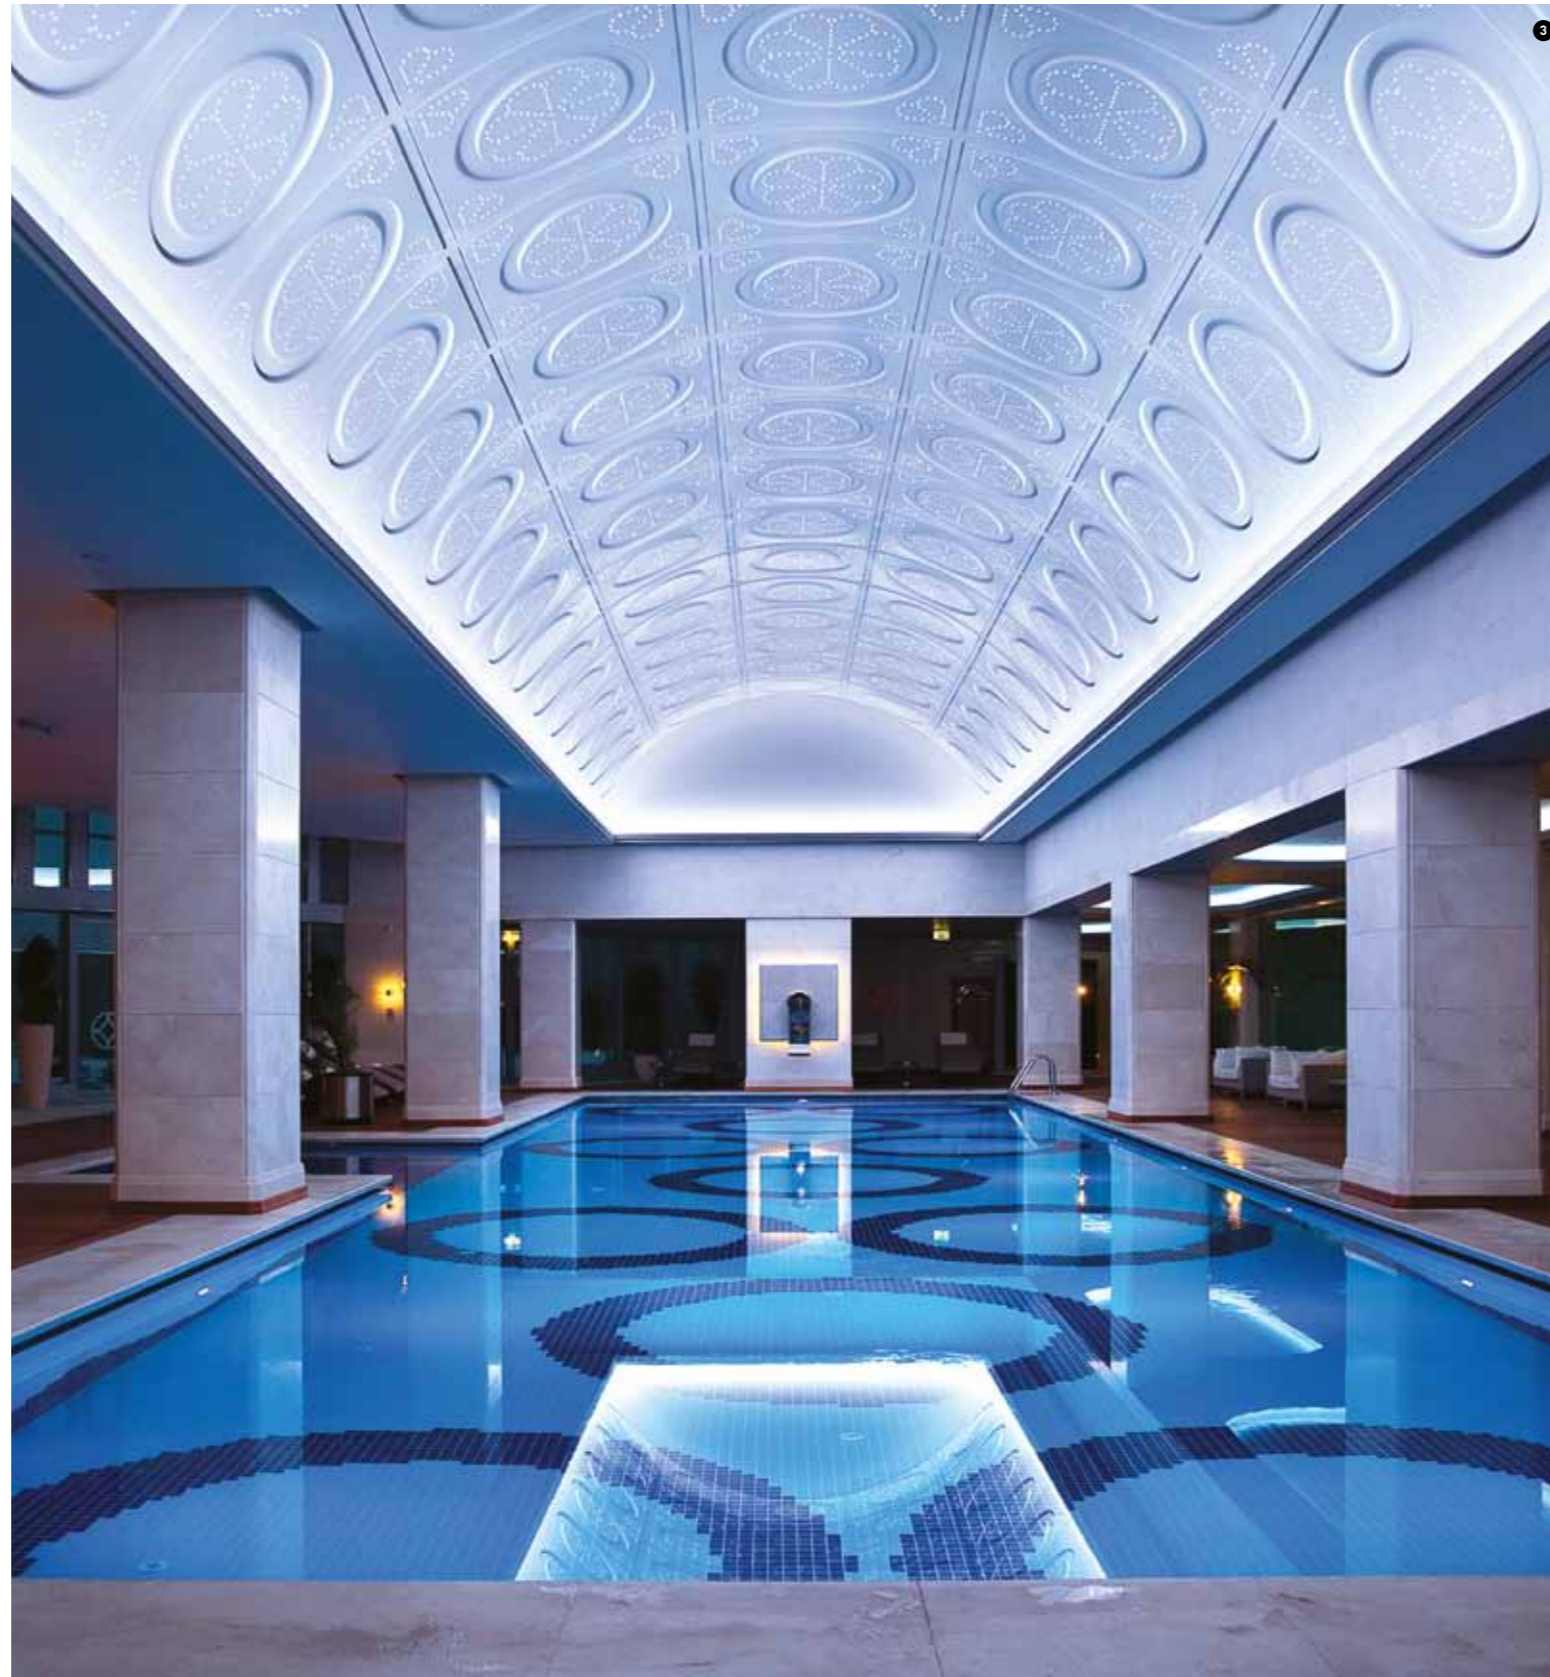

WHY HELVAR?

- Scene section to create the right ambience
- Fully scalable, from a single hotel room to an integrated lighting solution for the whole building
- Integration with room management system
- Integration with audio visual system
- Control of multiple load types
- Energy monitoring and maintenance
- Power on to last level used
- Automated control of public spaces

1 Hotell Naas Fabriker, Gothenburg, Sweden
Helvar provided lighting control throughout this former cotton mill.

2 Generator Hostel, Paris
We combined vintage luminaires with the latest lighting control technology to create a contemporary and stylish atmosphere.

© JW Marriott

© Mardan Palace

3 JW Marriott, Ankara, Turkey
Sophisticated lighting adds to the ambience of the jazz bar, nightclub, terrace and pool.

4 Mardan Palace, Antalya, Turkey
The built-in astronomic time clock makes allowance for seasonal changes.

5 Marina Bay Sands, Singapore
A Helvar 920 router system allows fast, fine control of long fades in large spaces.

“*Helvar lighting controls added the finishing touches to help create character and atmosphere.*”

NADINE RAVARINI
Generator Hostels' lighting consultant

HOTELS & HOSPITALITY

The world's best hotels need to get the light right. For breathtaking scale or groundbreaking ambition, you're in good hands with Helvar. Day and night.

HELVAR FOR YOUR:

- Ballroom or conference centre
- Boutique or shop
- Business centre
- Façade and landscaping
- Hotel room
- Fitness centre & spa
- Lift lobby
- Reception or atrium
- Restaurant

7 JW Marriott, Ankara, Turkey
All interior public spaces are lit using Helvar.

6 Hotel Café Royal, London
Hotel staff have control of the lighting with our uSee iPad app.

8 The Langham, London
Lighting sophistication thanks to DIGIDIM 454. From simple LED dimming to multiple scenes conjured up at a touch.

9 Sushi B Restaurant, Milan
A Helvar TouchPanel helps create just the right atmosphere.

“Sushi B wanted a DALI lighting control system, so Helvar were a natural choice.”

SERGIO RIGATO
Lighting designer

RETAIL

“Both the installation and programming stages ran incredibly smoothly.”

STUART GAUNT
Reggiani Lighting

1 The White Company, Norwich, England
A calm and inviting environment, fitted with tunable white.

2 Markthal Hall, Rotterdam, Netherlands
Spotlights respond automatically to natural daylight levels.

3 Banana Republic, London
Helvar's IMAGINE system combines reliability with ease-of-use.

4 intu Lakeside, Essex, England
Fully programmable digital controls made this a Lux Awards winner.

Breathe light into your brand. Create calm, welcoming spaces. Showcase hot products in the coolest of settings. Invent shopping destinations people want to seek out — and stay in. With Helvar controls, everything's possible.

WHY HELVAR?

- Automated control for energy saving
- Daylight harvesting and presence detection for energy saving
- Scene section to create the right ambience
- Control of multiple load types
- Integration with building management and audio-visual systems
- Energy monitoring and maintenance
- Power on to the last level used

RETAIL

People say retail is detail. Send the right message to your customers with plug-and-play systems you can program ahead of the install.

HELVAR FOR YOUR:

- Boutique or shop
- Bank
- Cinema
- Control room
- Façade and landscaping
- Food court
- Public space
- Parking
- Restaurant
- Supermarket

7 Zorlu Centre, Istanbul
Helvar 920 routers provide control of each individual luminaire.

8 Niketown, London
Our DALI kit allowed installers to work with existing cabling.

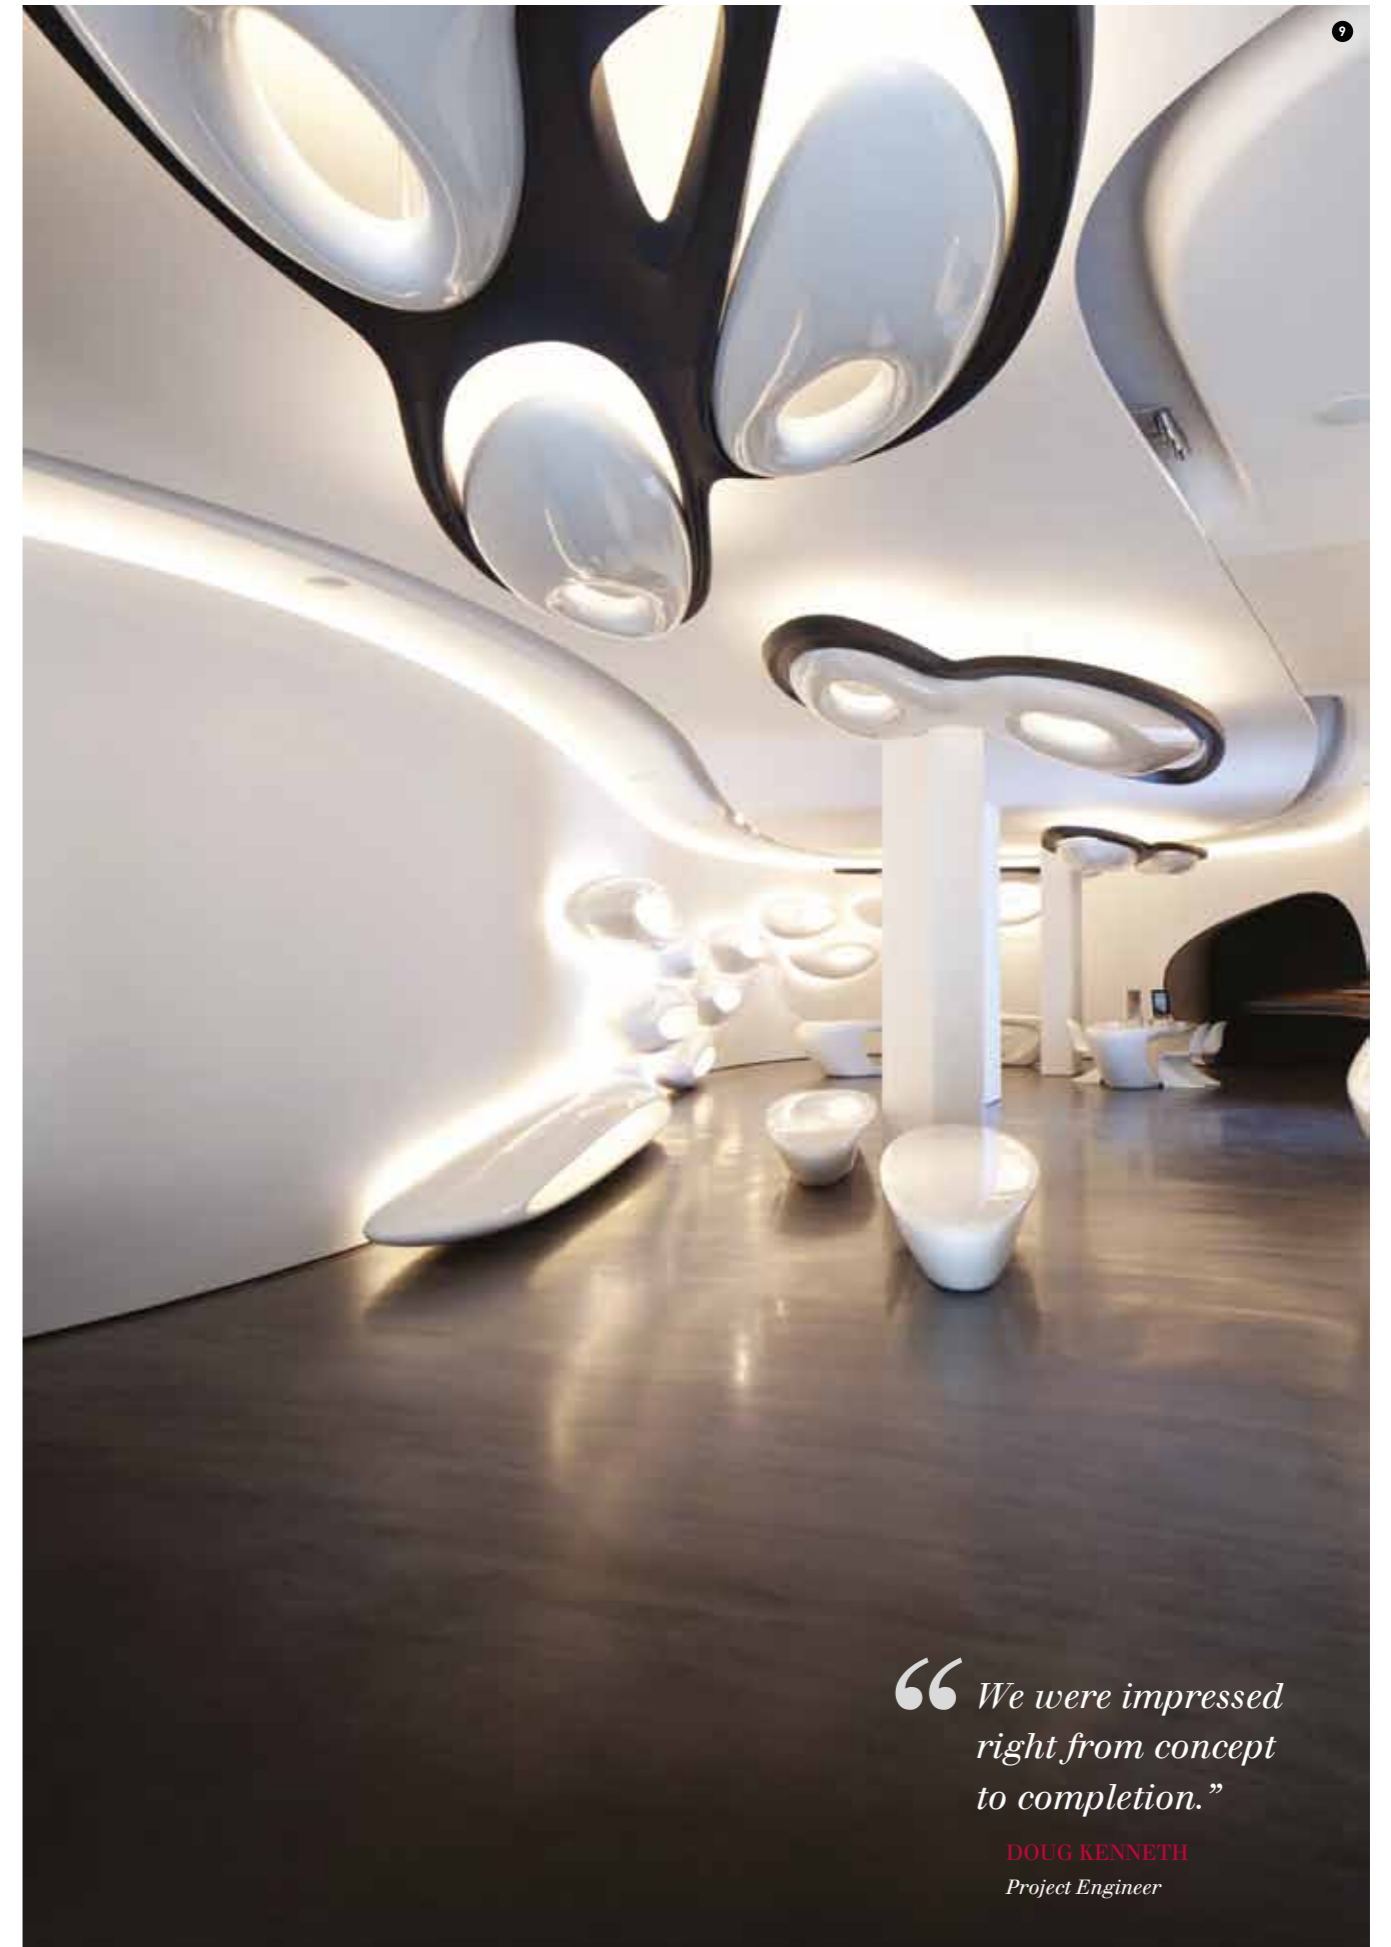

9 Roca, London
Bespoke settings are managed through custom-finish keypads.

5 Dubai Shopping Mall, United Arab Emirates
The world's biggest shopping mall is entirely lit by Helvar.

6 into Eldon Square, Newcastle
With customised colour control and predefined scenes for security and cleaning.

“We were impressed right from concept to completion.”

DOUG KENNETH
Project Engineer

INDUSTRIAL

Happy people work smarter and harder. With dynamic lighting that's based around natural rhythms, you and your team will make better decisions. Keep each other safe. And deliver the best results for customers, shareholders and our planet.

WHY HELVAR?

- Scene selection for specific tasks or requirements
- Fully scalable, from one room to an integrated solution across a multi-site complex
- Integration with building management systems including ventilation and heating
- Control of multiple load types
- Energy monitoring and maintenance
- Power-on to last level used
- Automated control for scheduled activities
